Wim speelt 32. 44-39?

Hij geeft teveel voordeel aan Peter.

Na 32. 37-32 7-11 33. 32x21 11-16 34. 42-37 16x27 35. 37-32 6-11 36. 32x21 11-16 37. 48-42 16x27 38. 42-37 3-8 39. 37-32 17-21 40. 26x17 12x21 41. 44-39 8-12 42. 39-34 21-26 43. 32x21 26x17 staat er een gelijkwaardige stand op het bord.

Peter antwoordt met 32. ... 17-22?

Hij geeft zijn voordeel weer prijs.

Hier kon 32. ... 6-11 33. 39-34 20-25 34. 33-29 17-22 35. 37-31 3-9 36. 38-33 19-24 37. 29x20 25x14 38. 34-30 14-20 39. 40-34 9-14 40. 33-29 23-28 41. 45-40 20-25 42. 29-24 14-19 43. 40-35 18-23 44. 43-38 13-18 45. 24x13 18x9 46. 34-29 25x34 47. 29x40 waarna het voordeel nog steeds aanwezig is. Maar dan na 47. ... 12-18 48. 40-34 9-14 49. 35-30 7-12 50. 30-25 12-17 ontstaat er zelfs een remisestand op het bord.

Het is zelfs uitkijken: Kingsrow speelde ook een variant waarin het voordeel vanwege een damcombinatie werd omgedraaid:

32. ... 6-11 33. 39-34 3-9 34. 33-29 17-22 35. 38-33 9-14 36. 37-31 20-25 37. 42-38 11-17 38. 33-28 22x42 39. 31x2 42-47 met beide spelers een dam en voordeel voor wit.

Zo blijken meerdere schijnbare goede varianten tot verrassende ontwikkelingen te kunnen leiden.
